## EPDH008 CONNECTION DIAGRAM:

## SIMPLE 4 STEP INSTALLATION:

### STEP 1

Place the **EASYPBX™** main control unit in a suitable location close to your incoming telephone lines and a standard power outlet

### STEP 2

Plug the incoming telephone line(s) from the wall sockets in to the main unit using the 1.5m cables supplied (up to 6 incoming lines may be used)

### STEP 3

Locate handsets as required and connect to the main unit using the supplied 10, 20, 30 metre phone leads

### STEP 4

Plug the main unit into the power outlet and switch the **EASYPBX™** main unit on

***That's it, your system is now ready for use***

RoHS
