

PROFESSIONAL BACK TO BASE MONITORED EMERGENCY DURESS SYSTEM

**Medical
Emergency Button**

**Personal
Help Button**

**Hold-Up
Button**

The Watchguard™ Emergency Duress System is a true revolution in monitored duress systems. Utilising advanced wireless technology means installation is very simple, and the wireless design allows you to expand / relocate the system at anytime.

To install, simply connect the Communication Dialer plug-pack to a power-point, plug the phone lead into a phone socket and then register with your Alarm Monitoring Centre.

When an Emergency Button is pressed, the communication dialer will transmit the detailed alarm activation data (Contact ID Format) via phone line to your monitoring centre for appropriate response action to be taken.

Package Includes:

- 1 x Communication Dialer Alarm
- 2 x Emergency Panic Buttons
- 1 x 9V DC Power Supply for the Communication Dialer
- 1 x Phone Lead to connect the Dialer to your phone line

24HR
Around The Clock Protection

**EASY
TO
INSTALL**

How The System Works:

WIRELESS EMERGENCY BUTTON

Press the Wireless Emergency Button when you need help. Up to 8 individual Emergency Buttons can be used with your Watchguard™ Emergency Duress System. Each button can be individually identified by the monitoring centre (i.e. Grandma's button, Grandpa's button...etc). Wireless operating range up to 100m (line of sight).

COMMUNICATION DIALER ALARM

This is the "brain" of the system. When it receives an alarm code from the Wireless Emergency Button, it automatically sends your alarm activation data to your monitoring centre via your phone line. The in-built siren will also sound to let the person know that the signal has been received. (Please note, this function can be disabled when you used as a "Hold-up Button").

ALARM MONITORING CENTRE

Your alarm monitoring centre will receive the data from your system and your designated contacts will be notified as per your instructions. Please contact your preferred monitoring service provider to discuss their individual monitoring service plans, notification method and charges.

ALARM NOTIFICATION

"Hello John. This is Sally from the Monitoring Centre. Your Watchguard™ Emergency Duress System at 1 Smith Street Sydney has been activated at 11:14am by your grandma's Emergency Button."
