Complete 4 Channel Digital Video Surveillance Kit with 4 x Colour Weatherproof Day/Night Cameras

This DIY package is ideal for the home or small business owner wanting to set up a digital surveillance system with network and remote access. It contains everything needed to set up the system with a 4 Channel Digital Video Recorder with 80GB hard drive, 4 Day/Night weatherproof cameras, power supplies and camera connection cables (2 x 10m - 1 x 20m - 1x 30m). The whole system has been designed to allow simple installation and operation and comes with easy to follow step-by-step installation and operation manuals.

It can record up to 25 image frames per second per camera (based on using all 4 cameras) and features MPEG4 video compression technology. This enables high quality image recording with reduced file sizes, maximising the amount of footage that can be recorded on the hard drive. The multiplex operation adds to the systems functionality allowing live display, record, playback and network operation at the same time. The DVR unit is easy to operate, and the simple on screen display menu allows the user to search recorded footage and alter settings as required. If connected to a Windows PC network, footage can be viewed over the network using the included software. If the network has a high speed internet connection, footage can also be viewed remotely over the internet. The software also enables footage to be backed up / archived from the DVR to a PC allowing storage on another HDD or burning to a DVD or CD.

DVR Features

- Advanced MPEG4 Video Compression Technology
- Multiplex Operation
- Long Recording Duration
- Intelligent Video Motion Detection Recording
- Remote Network Surveillance & Backup Functions
- Easy to operate like a VCR with buttons for play, record, FF, RW, Pause, Search, etc
- System auto recovery after power loss (blackout)
- Supports manual / timer / motion / alarm / remote recording functions
- Watermark function ensures authentication of the recorded images.
- Supports TCP/IP, PPPoE, DHCP and DDNS network connection

Cameras & Cables

2 x Day / Night Weatherproof Colour Cameras with Infrared LED's - 15m Range

- * High Quality CCD Image Sensor (Not Inferior CMOS Type) for Superior Picture Quality
- * 12 x IR LED's for Viewing in Total Darkness up to 15m (B&W Mode)
- * 420 TVL Resolution, 520 x 582 Pixels
- * Compact Size Ideal for Use Indoors or Out

2 x Day / Night Weatherproof Colour Cameras with Infrared LED's - 30m Range

- * High Quality CCD Image Sensor (Not Inferior CMOS Type) for Superior Picture Quality
- * 24 x IR LED's for Viewing in Total Darkness up to 30m (B&W Mode)
- * 420 TVL Resolution, 520 x 582 Pixels
- * Ideal for Outdoor Surveillance with Adjustable Sunshield

*Monitor Not Included
