Complete 16 Channel H.264 Digital Video Surveillance Kit with 2TB Hard Disk

Utilising the latest H.264 video compression technology, the Watchguard DVR16ENTPACK complete surveillance package is ideal for a home or small business wanting to set up a digital surveillance system with network and remote access.

It features H.264 Video Compression Technology - allowing for higher resolution image recording with smaller file sizes, Multiplex Operation allowing live display, record, playback and network operations simultaneously and Intelligent Video Motion Detection recording. This complete surveillance package contains everything needed to set up the system with a 16 Channel Digital Video Recorder with 2TB hard drive, 12x10M IR Day/Night weatherproof cameras (Rated IP67), 4x Indoor Dome Cameras, power supplies, camera connection cables (8 x 10m, 4 x 20m, 4x 30m) and 4x CCTV warning stickers. The system has been designed to allow quick and easy installation and comes with an easy to follow operation manual.

The DVR can record up to 400 image frames per second (real time) at CIF resolution (ie. 25FPS per camera @ 352 x 288 pixels). You can adjust the recorder settings for both image quality and frame rate, and when the HDD is full, you can set the DVR to automatically record over the oldest footage. If connected to a windows PC network, footage can be viewed over the network using the included software. If the network has a high-speed Internet connection, footage can also be viewed remotely over the Internet. The software also enables footage to be backed up / archived from the DVR to a PC allowing storage on another HDD or burning to a DVD or CD.

Package Includes:

1 x 16 Channel H.264 Stand Alone Digital Video Recorder With Network Functionality & 2TB Hard Drive

- Advanced H.264 video compression technology
