MAIN FEATURES:

Constant Recording:

When set to constantly record, the unit will continually capture and store recorded video, audio and time information on the SD card. When the SD card is filled to capacity, the oldest files will be overwritten.

Event Recording Function:

If set, the unit will begin recording if it detects movement, and will record continuously until the movement ceases.

Infra-Red Recording

Need to record at night? The built-in infra-red camera will record in black and white in low light and no light environments.
