

Professional Megapixel Network Video Recorder Kit with 8 Security Cameras and 2TB Hard Drive (No Built-in POE)

* Monitor (LCDLG23W) optional, not included in kit.

The NVR8PROPACK2NP is an easy install home/business surveillance system with a powerful set of features to help protect your property. Featuring 1.3 Megapixel Day/Night Ethernet cameras with H.264 compression which provide high quality video at a fraction of the hard disk space, motion detect recording, scheduling, alarm system integration and network feed access, this package contains everything you need to record and monitor your facilities.

The NVR can record 25 image frames per second per camera in high definition 720p (1280 x 720). You can adjust the recorder settings for both image quality and frame rate and when the HDD is full, the NVR will automatically record over the oldest footage. Video can be viewed from either a local machine or over the internet using a web interface or smartphone application. Backups can be made via USB flash or USB hard-drives included.

The NVR8PROPACK2NP offers a range of remote view options, including: smartphone/tablet viewing for iOS and Android ecosystems; smartphone viewing for Windows Phone; and local/network PC remote view.
