Universal Air-Conditioner Remote

Model No: RS10

USER MANUAL

Remote Panel

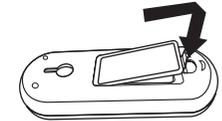

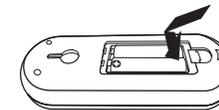

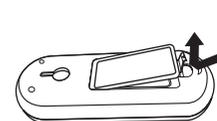

Batteries Installation

1. Slide open the battery compartment at the rear of the remote.

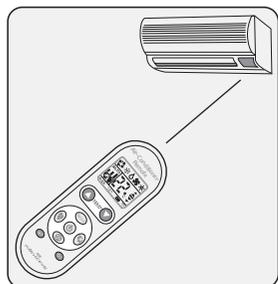

2. Insert 2 x AAA size batteries. (Not included)

3. Close the battery compartment. The 'Wi-Fi' symbol will now show on the LCD screen

Setting Up - Auto Search

1. Turn on the power to your air conditioner at the main unit. Then point the RS10 controller at the unit.

2. Press the "SET" button repeatedly until the air conditioner receives a signal from the controller. Normally indicated by a beep sound. Then press the "OK" button to confirm and set the correct code. Your RS10 remote is now ready for use.

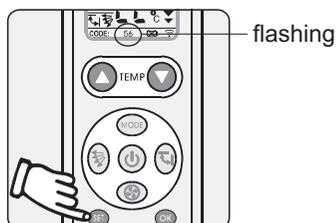

Setting Up - Manual Search

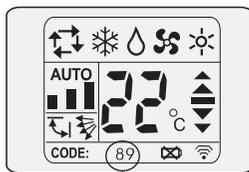

1. Refer to the "Code Table" and locate the correct code for your brand of air conditioner. Example below: (BRAND) = TOSHIBA / (CODE) = 56,57 Then turn on the power to your air conditioner at the main unit and point the RS10 controller at the unit.

BRAND	CODE
TOSHIBA	56,57

2. Repeatedly press the set button until the code for your air conditioner is flashing on the LCD screen

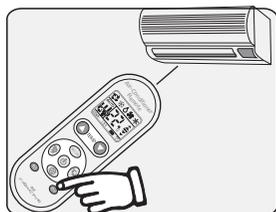

3. When the correct code is displayed press the "OK" button to confirm and set the code. The code will now stop flashing.

The code will stop flashing

4. Your RS10 remote should now be ready for use. Check for correct operation of the remote. If it is not working correctly repeat steps 2~4 until correct code is located.

Special Instructions

- Make sure that the air conditioners infrared remote signal receiver is working correctly. If it is not in working order this controller will not function correctly.
- Using this controller will not increase the functions of your existing air conditioner. For example: If your air conditioner does not currently have air swing control the air swing button on this controller will not function.
- Do not mix different types of batteries together.
- If the electrolyte in the batteries should leak, wipe the contaminated area with a dry cloth and replace with new batteries.
- To prevent the electrolyte from leaking, remove the batteries from the controller when planning not to use the controller for extended periods.
