SOLAR POWERED FLOODLIGHT with MOTION SENSING ACTIVATION

The Watchguard™ Solar Powered Mini Floodlight uses 36 super bright LEDs to provide clear light sufficient to illuminate pathways, driveways, entranceways and general areas. Powered by a rechargeable battery in a weatherproof housing, the fitting can be easily installed in any location without the need for mains power to be present. The battery is charged by the solar panel supplied with the unit. The solar panel comes with 4 metre of cable allowing it to be remotely mounted and angled to catch the best sun. The Solar Floodlight has a built in motion detector which senses movement within a 5 metre range and turns the light on. This turns the light into an effective security or safety light around buildings, yards, gates or sheds without the need or waste of lights running all night unnecessarily.

FEATURES:

- *Fully charged within 4-5 hours in sun*
- *Activated when movement detected*
- *Detect movement within 5m range*
- *Automatically turns off after 30 secs*
- *Low energy costs*
- *Simple Installation*
- *Low Maintenance*

IDEAL FOR:

Ideal For : Patios • Yards • Drives • Barns • Sheds • Gardens

SYSTEM INCLUDES:

1 x Crystalline Silicon Solar Panel

- Photo-voltaic technology
- With 4m power connection cable to the floodlight
- Separate from floodlight for fixable mounting position
- Tilt angle adjustment to catch the best sunlight

1 x Super Bright LED Floodlight

- Super bright with 36 LEDs
- Passive Infrared motion detector (5m detection range)
- Light ON when motion detected & automatically OFF after 30 sec
- Weatherproof housing IP44 rated

5 x Screws and Anchors

- 2 x screws & anchors for floodlight
- 3 x screws & anchors for solar panel
