

# Wireless Help/Panic Alarm With Automatic Phone Dialer

This Help/Panic alarm with telephone dialer and RF key fob allows you to record a 10 second help message and store 3 prefixed telephone numbers of your choice. When the button on the main unit or remote is pressed it will dial the 3 preset telephone numbers. When the receiver answers the phone they will hear the recorded message and can take appropriate action. In addition, they have the option to open a two-way hands free conversation between the caller and the receiver. You can have up to 3 remotes and each one can be used up to a distance of 50m from the main unit.

## Features

- Auto dialer, up to 3 programmable telephone numbers with a maximum of 16 digits each.
- Record a personal 10 second message
- Message playback
- Main unit is powered using the included AC adaptor. Input 110~240VAC, output regulated 6V DC
- Low battery indicator
- Detection Area: Max 50m long, LoS
- Easy to program
- Two-way hands free voice communication
- Use Radio 433.92MHz AM Super heterodyne receiver
