Wireless Solar Powered Surveillance Camera with Movement Sensor

In most homes it is often far too difficult for a DIY handyperson to even consider installing an outdoor surveillance camera - until now.

The revolutionary Securview Wireless Solar Surveillance System provides unequalled ease of installation and use. The colour surveillance camera with audio microphone is powered by a battery that is charged automatically from the in-built solar panel. The camera can be mounted directly to your wall in a sunny position, with no cabling required at all.

When body movement is detected by the in-built PIR sensor, the camera transmits the video & audio signals to the supplied AV receiver inside your home or business. The receiver simply connects to an available AV input on your TV or VCR. When the camera detects movement, the indicator light on the receiver illuminates and a buzzer sounds (can be switched off). The receiver then displays the camera signal on your TV while ever movement is being detected by the camera.

Wireless Solar Security PIR Camera SPECIFICATIONS	
Frequency Range	2.400~2.483Ghz
Resolution	PAL 628 x 582
Use Location	Outdoor
Channel	4
Wireless Range	100M (Line Of Sight)
Image sensor	1/3" CMOS
Activated sensor	PIR motion sensor
Protection Level	IP44
Power	DC6V,1.2Ah
Battery	1x 9V Alkaline, 1x DC6V Rechargeable
Dimensions	W184 x 180 x H190 mm (Included Antenna)
Weight	124g
Audio/Video Receiver	
Frequency Range	2.400~2.483Ghz
Channel	4
Light & Buzzer	Yes
Dwell time	10/20/30/40 sec
Op.Range	100M
Display Type	AV Out
Power	DC 9V, 300mA
Dimensions	W122 x D100 x H40 mm
Weight	198g

Standard Package includes :

- 1 x Colour Solar PIR Camera
- 1 x Audio/Video Receiver
- 1 x Low Voltage Power Adaptor (For Receiver)
- 1 x AV Connection Cable
