

# Watchguard™ Fire and Theft

**COMPLETE BURGLARY & FIRE DETECTION SYSTEM  
FOR YOUR HOME OR OFFICE**

# Watchguard™ Fire and Theft

**COMPLETE BURGLARY & FIRE DETECTION SYSTEM  
FOR YOUR HOME OR OFFICE**

The Watchguard™ Fire & Theft is a complete burglary and fire detection system suitable for your home or office. When the system detects the body movement of an intruder, or senses smoke inside your building, the alarm will activate both the internal siren as well as the external siren with flashing blue strobe. The system is very easy to use and install.

## Key Product Features:

- Wireless Security System with DIY Installation
- Easy To Use, Expand and Relocate
- Emergency Panic / Duress Function via Remote
- Backup Battery In Case of Mains Power Failure
- Powerful External Siren with Flashing Blue Strobe
- Three individual sirens sound on smoke detection to generate maximum alert to fire danger (in-built, internal and external)
- Similar Appearance To Security Industry Standard Alarm Systems
- High Frequency Internal Siren to Repel Intruders
- Suitable For Home or Office
- Latest Supervised Detector And Code Hopping Remote Technology

## Package Contains:

### 1x Main Control Unit

The unit incorporates a powerful siren, flashing blue strobe & backup battery to run the system in case of mains power failure. Tamper button to trigger the siren in case anyone tries to remove the unit.

### 2x Wireless Passive Infrared Sensors

Designed to detect the body movement of an intruder inside your premises. These intelligent devices allow simple installation, as no cable is required between the main unit and the sensors.

### 1x High Power Internal Siren

This high frequency siren generates an intolerable noise to the human ear, and is designed to help repel intruders from within your home.

### 1 x Wireless Smoke Sensor

**(Australian Standards Approved AS3786)**

When smoke is detected the sensor will sound its own in-built siren as well as transmit a coded radio signal back to the Main Alarm Control Unit. This signal will activate both the internal and external alarm sirens simultaneously.

### 2 x High Security Code Hopping Remote Controls.

These allow you to easily arm & disarm the system from anywhere in your home without having to remember a pin number or always enter /exit through the same door to access a keypad. In case of duress, you can trigger your Watchguard Home Alarm System at any time from the remote control. You can also arm only certain areas i.e at night you can have the sensors in your living areas armed, but those in your bedrooms disarmed.

## Technical Information

Siren Duration	5 Minutes With Auto Reset & Zone Bypass Features
Alarm Zones	8 Wireless Sensor Zones Plus 1 x 24 Hour Tamper Circuit From Main Unit. Each Zone Can Be Individually Programmed For Home, Away or 24 Hour Activation
Power Supply	Mains Power Adaptor 9 VAC 1Amp
Backup Battery	12V DC 1.2 Ah Sealed Lead Acid
Main Unit Current Consumption	ARMED: 25mA DISARMED: 13mA ALARM: 800mA
Intruder Detector Range	10 Metres max at 25 Degrees Celsius
Wireless Detector Batteries	3V Lithium Cells - 2 Per Detector - Type CR2450
Remote Control Batteries	3V Lithium Cells - 2 Per Remote - Type CR2025 (Personal Organiser Type)
